**in the vineyard** : The grapes were sourced from vineyards across the Western Cape. The viticulturist works hand-in-hand with the grape growers in managing each vineyard block to ensure the best quality fruit for this wine. The different microclimates and soil types associated with each vineyard add to the complexity of the wine.

**about the harvest**: The grapes were harvested by hand and machine at 23° to 24° Balling from the end of January to mid-February.

**in the cellar** :

They were crushed and fermented in temperature-controlled stainless-steel tanks at 25°C to 28°C for seven days. After malolactic fermentation the wine was matured in contact with French and American oak of seven months.
