ageing :

Savour the wine now or cellar for up to one year from vintage.

in the vineyard :

The vintage was dry, warm and early for the most part, with smaller berries and lower yields. Some varieties set inconsistently - even within the same bunch or cluster. The significantly smaller harvest coupled with the dry conditions induced earlier ripening. Reds look very good whereas the whites were challenging due to lower acids, but the winemaking team were up to the challenge and produced a solid performance.

in the cellar :

Maturation: 1 - 2 months of wood maturation.
