ageing :

2 - 3 years

in the vineyard : Shiraz is by nature a vigorous grower, so a 6-wire Perold system is used to manage the canopy. Our Shiraz is planted in deep Karoo and Shale soils that are rich in lime. An average of 7 to 12 tons of fruit was harvested per hectare during the fourth week of February from 35 specially selected grape growers in the Robertson Valley. This rich lime content ensures a healthy growing medium. Bunch size is kept below 120 grams per bunch to ensure concentration of fruit.

about the harvest:
Grapes were harvested at full ripeness between 24,5° - 26,5°B from a selection of vineyards with the average age of vines between 7 and 9 years.

in the cellar :
The wine was fermented in temperature controlled stainless steel tanks at 28°C for 9 days to retain a delicate fruit component and to add body and weight. Eighty percent of the wine was aged on French Oak and twenty percent on American Oak for 6-8 months.

Oak Maturation: 80% French, 20% American Oak.
