The Fat Bastard Cabernet Sauvignon was made from carefully selected grapes with the aim to produce a wine with pure fruit character.

about the harvest: The grapes were harvested from various vineyards.

in the cellar : The tanks were mixed once daily via a short pump over and once fermentation was in full swing the tanks were punch down or pumped over through the skin cap three times a day to ensure optimal extraction of colour, aromatics and structure. The wine was fermented dry on the skins and pressed off and left on the lees through-out Malolactic fermentation. The wine was aged for 16 months on French and American oak.
