in the vineyard : Grapes are sourced from vineyards in the Western Cape that are growing on koffieklop and oakleaf soils. They are meticulously farmed and yields are managed down to below 8 tons per hectare.

about the harvest: Grapes were handpicked very early in the morning allowing the fruit to retain their natural flavor.

in the cellar : Only the free run juice was used, allowed to settle and inoculated with selected yeast strain, fermenting under controlled conditions at 12°C. Prior to bottling the alcohol level is reduced to less than 0.5% ABV as gently as possible through a specialized process.
