The Bosman Cabernet Sauvignon has always been a stalwart on our farm. The grapes for this wine were harvested from older vineyards which have produced consistent superior quality over decades.

in the vineyard : From vineyards planted on deep red shale soils, and others planted on decomposed granite. This gives us a wonderful blend of rich succulent fruit characters and a lean minerality.

in the cellar : The berries are sorted before cold soaking, then the must is kept cool for two days followed by fermentation at relatively low temperatures. Punch-downs and pump-overs make for good colour extraction where after the wine spends 18 months maturing in small French oak barrels .
