about the harvest: The first grapes of the 2001 harvest were harvested on the first of February. Quality of the grapes harvested, especially the red varieties, was of an exceptional high standard. This is due to a dry season characterized by stable temperatures that developed healthy grapes and eventually even ripening with good sugars.

in the cellar : The wine was harvested at optimum flavour from a selection of vineyards. Keeping the fruit separate throughout fermentation, wines were produced with varying flavours and palate weight allowing a diverse choice when it came to blending.
