about the harvest: The Cabernet Franc old vine grapes were hand harvested at full ripeness from a selected site while the Carignan was harvested early for freshness.

in the cellar : The grapes were lightly crushed and destalked into a Rototank for good extraction. After a 2 day, cool presoak, the wine was inoculated for fermentation. Pressing occurred before the end of fermentation and the young wine was moved to 225l French Oak barrels (60% new, tight grain, medium toast). Malolactic occurred in barrel followed by 18 months of maturation before removing and bottling.
