The grapes were handpicked from our vineyards in the prime Koelenhof area of Stellenbosch. The mash was cold soaked for one day to extract maximum colour, before being inoculated with a cultured yeast. The wine was fermented until dry on the skins, in open stainless steel tanks at 30°C, after which it was lightly pressed, blended and racked to barrel. A combination of 1st and 2nd fill Taransaud Nevers barriques was used. The wine was matured for 18 months to develop complexity before its final blending, light filtration and bottling.

Wood ageing: 50% in new French and 50% in 2nd fill French for 18 months.

Total production: 3000 x 12
