type : Red **style** : Dry **body** : Light **taste** : Fragrant
pack : Bottle **size** : 750ml **closure** : Screwcap

The recent demarcation of the Darling district has led to a focus at Darling Cellars on wines which are terroir and varietal specific. The cool and temperate West Coast climate lends itself to a different micro- and mesoclimate which, along with the different types of soil, lead to unique grapes, which we guide into even more unique wines. Having 99% of all vineyards dry land and almost the same percentage as bush vine, this is as close to what nature intended for grapes to be as one can get.

in the vineyard : Deep, decomposed granite soils on the slopes of the Darling Hills, with a cooling effect from the Atlantic Ocean in close proximity, in the warm afternoons

Vineyard type: Bush Vine, dry land
Yield: 3 -7 t/ha

about the harvest: Balling at Harvest: 23-24°B

in the cellar : Crush and destalk, 15 days fermentation at 20-30°C on skin. Pressed at 5-10°B. A portion of the wine spend 8-12 months on staves and to add complexity and layers, this wine is blended with other components.
