

Villiera Bush Vine Sauvignon Blanc 2023

Villiera Bush Vine Sauvignon Blanc 2023 is a structured wine that required longer bottle maturation before release. The green pepper and tropical aromas are nicely complemented by some oak spice. This wine should keep for up to 5 years and the new style typifies the terroir it grows in. This is an exciting departure from what we usually did, and it embraces new trends in winemaking to ensure greater versatility with food.

variety : Sauvignon Blanc | 100% Sauvignon Blanc

pack : Bottle **size** : 750ml **closure** : Cork

2024 SAWi Awards - Grand Gold

ageing : This wine should keep for up to 5 years.

At Villiera we have an old, single bush vine vineyard with the weather station clone of Sauvignon Blanc. It has the ability to produce a unique, intense style that we felt was worthy of its own platform. The bush vine system is a traditional training method especially suited to unirrigated vineyards. The limited yield ensures early ripening.

about the harvest: The grapes are handpicked from certified OLD VINES and sorted. Picking occurs in the morning to take advantage of cooler conditions and the fruit is protected from oxidation. Picking from bush vines requires a back breaking effort but it is worth it.

in the cellar : The grapes were crushed and destalked to allow for 24 hour skin contact. The juice was then racked to barrels (60% new French oak /40% older barrels) where it underwent spontaneous fermentation. Malolactic fermentation was avoided to retain freshness and batonage occurred weekly. After 10 months the wine was removed from barrel and was stabilized before bottling.
