in the vineyard : The grapes are from a single vineyard in Wellington. The soil is made up of red and yellow decomposed granite and the vineyard is situated on a north facing slope with a gentle incline. The yields are low with concentrated fruit, full of flavour.

about the harvest: The grapes are harvested by hand at optimum ripeness.

in the cellar : Hand harvesting allows us to sort the fruit in the vineyard. The juice was fermented in stainless steel tanks at a low temperature and aged on the lees for 6 months to give the wine a rich and creamy texture.
