

Spier 21 Gables Chenin Blanc 2023

Spier 21 Gables Chenin Blanc 2023 is pale lemon gold in colour. It's a fresh and pure style of Chenin Blanc. Ripe, juicy peach, pear, litchi, and melon fruit aromas are balanced with notes of citrus rind and white coriander spice. The palate is youthful but wonderfully luscious, refreshed by lingering acidity and a dense fruit core finish that provides complexity and texture.

Delicious with crisp, caramelised pork belly, duck breast with fynbos honey and spices, or smoked West Coast mussels. For a lighter pairing, enjoy with a flavourful vegetable korma curry.

variety : Chenin Blanc | 100% Chenin Blanc

winery : Spier Wine Farm

winemaker : Johan Jordaan

wine of origin : Tygerberg

analysis : alc : 14 % vol rs : 5.4 g/l pH : 3.38 ta : 5.8 g/l

2025 Tim Atkin MW Report - 92 points

2025 Global Chenin Blanc Masters - Grand Master

ageing : Enjoy now or cellar for up to 10 years.

As a proudly South African winery dating back to 1692, the 21 Gables range pays homage to Spier's winemaking heritage of more than 300 years. The 21 architecturally significant gables remain preserved on the estate to this day. Archives indicate that the first vines planted on Spier in the 1700s were most likely Chenin Blanc. Instrumental in South Africa's rich winemaking history, Chenin Blanc is a beloved workhorse capable of dynamic versatility. Barrel-fermented and matured, the 21 Gables Chenin Blanc was crafted from prized old vines.

in the vineyard : The fruit for this wine comes from a single vineyard planted between 1983 and 1985 in the hills of Tygerberg near Cape Town. Our philosophy is to guide the wine to reflect the terroir, and this terroir is an old soul. As a result, we farm with nature, protecting soil health and nourishing the vines on regenerative principles. The close proximity to the cold Atlantic Ocean, helps to temper the heat so the berries can enjoy a longer hanging time. At the same time, the ancient Malmesbury shale provides the opportunity for dryland farming to achieve the highest quality fruit possible.

about the harvest: The 2023 vintage was slightly drier but cooler than 2022. The Chenin Blanc grapes for this wine were hand-picked in 5 parcels from 3-15 March from the single vineyard in the hills of Tygerberg. This partial picking was done to select the grapes at different ripeness levels, encouraging complexity. The grapes were harvested in 20kg lug boxes and pre-cooled.

in the cellar : The grapes were pre-cooled before hand-sorting, destemming, and crushing. Skin contact was limited to 6 hours, and the free-run juice drained off to settle overnight before inoculation. Fermentation took place in a combination of 300L, 400L, 500L, and 2500L tight-grain French oak barrels. We use different oak barrel sizes to add varying levels of oak influence that can then be skillfully blended for the final wine. I think of this wine as a single varietal made like a blend. The Chenin Blanc then matured for 10-12 months in barrels – 50% new oak, with the balance being second fill.
