pack : Bottle **size** : 750ml **closure** : Cork

2025 James Suckling South Africa Tasting Report - 91

ageing : Ready to be enjoyed now with the potential to age further for eight years.

The Dry Land Collection Wines are made from grapes of dry land vineyards, which showcase the uniqueness of the wines grown in this testing terroir. These wines are made in a New World style, complex with ample fruit and structure.

in the vineyard : Soil Type: Malmesbury shales

Age of vines: 20 years

Average yield: 8 tonnes per hectare

Irrigation: Dryland (natural rainfall)

about the harvest: The 2024 harvest started two weeks earlier than the previous year. However, unforeseen winds during late November and early December resulted in a reduced yield. Despite this, the anticipated quality remains exceptional. Elevated temperatures in early February necessitated an early grape harvest by the team.

Picking date: April 2024

Grape sugar: 42° Balling

in the cellar : After the grapes were de-stemmed, they were given skin contact for two days with regular pump-overs of the juice. This ensured that ripe flavours were extracted from the skins and raisins. Only pressed juice was used, and great care was taken to ensure that the juice was clear before fermentation started to ensure the pure, concentrated fruit in the wine. The wine was thermo-flashed once it reached the required sugar levels. The wine was cross-flowed and transferred into barrels for maturation.

Wood maturation: 10 - 12 months in barrel. French oak, 500-litre, second-fill

Bottle maturation: 12 months
