**in the vineyard :** Soil Type: Decomposed granite

Age of vines: 10 years

Average yield: 10 tonnes per hectare

Irrigation: Dry land (natural rainfall)

**about the harvest:** Vintage: The 2024 harvest began two weeks earlier than the previous year due to unforeseen winds in late November and early December, resulting in a reduced yield. Despite this, elevated temperatures in early February necessitated an early grape harvest, with the anticipated quality remaining exceptional.

Picking date: February 2024

Grape sugar: 23.5° Balling

**in the cellar :** Method: After the grapes were de-stemmed, the berries were sorted to ensure that only the best fruit was used for this wine. Cold maceration of the skins was given for 48 hours to ensure maximum colour and flavour were extracted. For five days, fermentation was done in stainless steel tanks with regular pump-overs.

Wood maturation: 12 months in barrel. French oak, second and third-fill.
