

## Visio Vintners Sauvignon Blanc 2025

The collaboration supports the transfer of skills in wine farming, farm management, winemaking and wine marketing, in order to ensure long-term sustainability.

**in the cellar** : The grapes were treated reductively to preserve the delicate Sauvignon Blanc flavours. After destemming, crushing and 24 hours skin contact the free run juice was left to settle and then fermented at 13°C. The wine was left on the lees for 6 months before bottling.
