Durbanville Hills is one of only a handful of urban-based wineries. This close proximity to Cape Town has inspired our winemakers to create a new range of uniquely blended wines, which are vibrant, and flavoursome and celebrate the essence of the city's diverse and creative lifestyle.

in the vineyard : Grapes were sourced from the Cape Town region where maritime climatic conditions ensure slow ripening of grapes and delicate fruity wines. The cooler temperatures due to oceanic winds and the long hours of sunlight as the sun sets into the ocean, delivers healthy, aromatic grapes.

in the cellar : Grapes were hand-harvested at optimum tannin and fruit ripeness. The must was fermented in specially designed auto fermenters under controlled conditions with timer-regulated pump-over cycles for soft extraction of colour and fruit. After pressing, controlled malolactic fermentation took place in tank. The different cultivars were aged on French oak staves for 12 months before being blended.
