

Paul Cluver Cabernet Sauvignon 2000

This wine shows typical Cabernet Sauvignon flavours, lots of blackberry and blackcurrant fruit on the nose and a well-integrated toastiness from the oak. The palate is very complex with hints of cedar wood and nuts with a well-structured body, packed with fruit and the aftertaste is long and lingering.

variety : Cabernet Sauvignon | Cabernet Sauvignon

winery : Paul Cluver Family Wine Estate

winemaker : Andries Burger

wine of origin : Elgin

analysis : alc : 14.0 % vol rs : 1.9 g/l pH : 3.60 ta : 5.7 g/l va : 0.45 g/l so2 : 80 mg/l fso2 : 36 mg/l

1999 - SA Trophy Wine Show "Top 100 Wine in South Africa"

1999 - Michaelangelo International Wine Award 2001

1999 - Four Stars John Platter 2001

ageing : This wine can be enjoyed young but will gain complexity if cellared a further 4 to 8 years.

in the vineyard : Due to the cool climate in Elgin the Cabernet Sauvignon is planted on a Northwest-facing slope, we also used the early ripening 163 clone and the rootstock also enhances earlier ripening. All this is done to ensure that we will get optimal ripeness even in our cooler climate.

Aspect: Northwest

Hectares: 5.9

Planting date: 1992

Clone: 163

Rootstock: 101-14 Mgt

Planting width: 2.5m by 1.0m

Average production over 3 years: 6 tons/ha

about the harvest: The grapes were harvested on the 21 March 2000 at 23.5° Balling, total acidity 6.2g/l and pH 3.55.

in the cellar : After destemming the grapes were transferred to the fermentation tank, 40 mg/l SO₂ were added at the crusher destemmer and inoculated with a yeast culture. During the fermentation the juice was pumped over the skins three times per day at a rate of two times the volume of wine per day. This was to ensure that the skins stay wet and for a good extraction. After fermentation the wine was left on the skins for a further six to seven days. The wine was then transferred to small French oak barrels for malolactic fermentation; after the malolactic fermentation was completed the wine was racked and matured in French oak for 15 months (50% New Oak).
