The Beyerskloof Pinotage boasts of being South Africa's most popular Pinotage and it's no wonder. This wine has shown a fruity and enjoyable consistency year after year. Classic Pinotage.

in the vineyard : We had an excellent winter with the ideal conditions for the vines during their rest period. Budding started end of August with a lot of rain, which created high disease pressure. In October, we had strong winds that continued until mid-January. The wind had a positive effect on the disease pressure but had a negative effect on flowering, and in the end our yield.

Harvest started 7 days earlier at the end of January due to a few heat waves in January. Weather conditions were great during harvest, and we finished early, on 13 March. Quality of the grapes looked excellent even though we are down 20% on our long-term average production. In general, I am very happy with the vintage, although I would have loved a little bit more grapes!

in the cellar : Different systems of skin contact and fermentation in open fermenters, roto tanks, and fermentomatics. 6 to 8 days on skins at 25°C. After malolactic fermentation the wine was treated with oak.
