ageing : The wine has the structure to last but Chenin Blanc can also be enjoyed young.

in the cellar : Villiera was amongst the pioneers of wooded Chenin Blanc in the Cape, albeit only partial, which resulted in a very integrated wine. The aim was to produce a rich, ripe wine which could handle a dimension of oak and would improve over an extended period. This was achieved by picking fully ripe grapes, allowing 6 hours of skin contact and pressing gently. Forty percent of the wine was fermented in oak, while the balance fermented in stainless steel.
