Veritas 2003 - Double Gold

ageing : Drink now or keep for next 4-5 years.

about the harvest: Fruit was hand picked at 25-26° Belling, from 9 year old vines (SH1A on R99 and 101-14Mgt) growing on koffieklop and Clovelly soils. Average yield was 7t/ha.

in the cellar : Fifty percent of the fruit was fermented at 28°C in open fermenters with 3 daily punch downs. The balance was fermented in closed fermenters with 4 daily pumpovers. Fermentation and malolactic was completed in new French (70%) and American (30%) 225l barrels. After malolactic the wine was racked and barrel matured in 45% 1st fill, 25% 2nd fill & 20% 3rd fill French 225l oak barrels for a total barrel contract period of 16 months. A light egg white fining and course sheet filtration preceded bottling.
