

## **Swartland Light - DISCONTINUED**

Full fresh typical "ferned" flower bouquet, supported by integrated honey sweetness, finished by a clean acid

variety: Fernao Pires | Fernao Pires

winery: Swartland Winerywinemaker: Andries Blakewine of origin: Coastal

analysis: alc:8.75 % vol rs:12.7 g/l pH:3.67 ta:4.9 g/l so2:132 mg/l fso2:

51 mg/l

in the vineyard: Soil: Grown on the decomposed granite soils on the cooler foothills of the Paardeberg and on medium potential soils with a gravel under layer on the western side of the region. Both areas are very well suited for this delicate cultivar. Climate: The Swartland falls within the coastal winter rainfall area. Warm, dry summers, moderated by cool Atlantic breezes.

Annual rainfall: 400mm average.

**about the harvest:** Low production of 7 to 8 ton/ha from unirrigated bushvines. Grapes are hand harvested at early ripeness with a low sugar, but with the acidity in balance.
