

Upland Pure Potstill Brandy

The character of Upland brandy is unmistakable: Wafts of dried peaches and apricots, citrus and pineapple are topped by generous vanillas- a depth and complexity of flavours that lingers on the palate, with a dry finish typical of the great Cognacs. The Director's Reserve brandy is made in very limited quantities, hand selected from the finest of each year's produce.

When enjoying any of the above, it is an added satisfaction to know that the organic farming techniques employed ensure that Upland products don't "cost the earth".

Upland brandies are best when savoured neat after a meal, accompanied perhaps by coffee and dark chocolate...
