This Chardonnay is made from grapes grown on high calcareous gravelly hills.

in the cellar : After fermentation the wine matured on the lees for a few months. This Chardonnay is selected from specific clones. The wine is tank fermented, after which it is left on the lees for a few months, being stirred weekly until bottling.

Barrel maturation: None

Danie de Wet adjusts his methods of winemaking from year to year, according to weather conditions and grape quality, in the belief that wine is made in the vineyard and not in the cellar.

Cooper: French oak barrels for De Wetshof are specially selected from specific coopers to enhance the quality of the fruit.
